Augment your productivity

Work non-linearly, just like your brain. Drag topics around, draw connections between different ideas, and park related notes, links, and files where they belong.

Put your plans, projects, and processes in motion

Move from brainstorming to planning to execution in a single application and turn ideas into action … right before your eyes.

Ignite teamwork and innovation

Experience cross-platform co-editing natively integrated into MindManager Windows, Mac, Microsoft Teams, Web, and Chromebook.

Peace of mind for your business

Let worry become a thing of the past. With IT and admin capabilities, large scale software deployment, and license administration, MindManager is a solution built for your business.

One of the best tools for running a business

*"Everything from strategic business plans to product offering roadmaps starts on MindManager. It is an excellent tool for **organizing thoughts and building outlines**, and then dropping in the content necessary to complete the plan."*
